Received by Sound Transit Legal Department  
July 30, 2018

PD18-365

Russ,

Would you please open a new PDR for this?

Thanks,  
Linda

Subject: FW: NextGen Orca

Hi! I think that this should probably be classified as a public disclosure request, correct?

Subject: NextGen Orca

Hello, Sunnie-

Elka with Councilmember Upthegrove's office connected us with you to discuss the Next Gen Orca replacement project. We represent Neology, a transportation technology/mobility company. We are seeking a current status of the RFP process, and estimated timeline for that process. If you can provide us info via email that would be much appreciated, and we are happy to chat with you via phone as well. If a phone call would be helpful to give you more background of what we're seeking, let me know! In addition, would you provide us the members of the Orca 2 Steering Committee, and point us to the updated business case that was submitted to the King County Council in March, pursuant to the budget proviso, and whether there have been further updates since that March report.

Thanks very much

TK Bentler
